

BRECKWELL VACUUM PRESSURE SWITCH

80549-AMP

INSTALL INSTRUCTIONS

How to Install

1. Unplug the unit.
2. Remove the necessary panels from the unit to gain access to the switch.
3. Locate the switch.
4. Disconnect the wire leads attached to the switch.
5. Remove the vacuum hose from the port on the switch.
6. Loosen and remove the screws attaching the switch to the mounting bracket /rear of the stove.
7. Position the new switch in the same orientation as the old switch (Unless the instructions specify a different position).
8. Reinstall the previously removed screws.
9. Reconnect the wire leads and vacuum hose.
10. Reposition and install any previously removed panels.
11. Plug in the stove and test the unit to confirm it is operating as it should.
