

# BRECKWELL POWER SUPPLY CORD C-E-060

## INSTALL INSTRUCTIONS

---

### How to Install

1. Locate the power supply port on the grill. Ensure that the port matches the female end of the power supply cord.
2. Ensure the nearest power outlet is within range of the stove, ideally within the length of the power supply cord. Repositioning the grill or acquiring an electric extension cord of the same type of connection and voltage may be necessary.
3. Plug the power supply cord into the wall and the grill.
4. Turn on the grill to test.
