

COMFORTBILT WIRING HARNESS

CB-WIRING-HARNESS-HP22

INSTALL INSTRUCTIONS

How to install

1. Unplug the unit's power cord.
2. Remove the side and rear panel closest to the lower circuit board (You may need to remove additional panels as well).
3. Carefully look over the various connections. Disconnect each connection one at a time and replace it with the corresponding connector on the harness. (Refer to the [Wiring Diagram](#) below).
4. Reinstall any previously removed panels and plug in the unit's power cord.
