

IRONSTRIKE PRESSURE SWITCH 16050001

INSTALL INSTRUCTIONS

How to install

1. Unplug the stove.
2. Remove the rear access panel from the stove.
3. Locate the pressure switch on the side of the stove where the combustion/exhaust fan assembly is located.
4. Disconnect the hose and two wires from the pressure switch.
5. Remove the two screws that connect the pressure switch to the mounting bracket to remove the pressure switch.
6. Install the new pressure switch to the mounting bracket with screws.
7. Reconnect the wires and hose onto the new switch. It does not matter which wire goes on to which terminal.
8. Reattach the rear access panel to the stove.
