# LENNOX PROOF OF FIRE SWITCH H5887 INSTALL INSTRUCTIONS

---

**How to install**

1. Unplug the stove
2. Open the rear access panel. Removal of the access panel may be necessary.
3. Locate the Proof of Fire switch on the side of the stove where the combustion blower is mounted. The switch is located on the exhaust blower housing.
4. Loosen the two contact points for the wires on the switch and remove the two fork connectors using a flat head screwdriver.
5. Remove the two hex screws that hold the switch to the housing using a 1/4" socket wrench.
6. Install the new switch to the housing. If your new switch does not have screws for connecting the wires, use the screws from the old switch.
7. Reconnect your wires to the new switch. It does not matter which wire goes on which terminal.
8. Close the rear access panel. (reattach panel with screws if removed)
