

LENNOX PRESSURE SWITCH HOSE H5898

INSTALL INSTRUCTIONS

How to install

1. Unplug the stove.
2. Open the rear access panel on the stove. Removal of the panel may be required to access the mechanical cabinet.
3. Locate the pressure switch and disconnect the hose from the switch and the port on the stove.
4. Connect the new hose to the switch and the stove port. Ensure the hose is connected to the switch on the same nipple as the original hose.
5. Close the rear access panel. Reattach if removed.
