

WHITFIELD HIGH LIMIT SNAP SWITCH 12147705

INSTALL INSTRUCTIONS

How to install

1. Unplug the stove from power
2. Open/remove the wiring access panel on the side or rear of the stove.
3. Locate the switch above the room blower or above the air intake (there are 2 switches)
4. Disconnect the wires from the old switch.
5. Remove the mounting screws and remove the old switch from the stove.
6. Mount the new switch in place of the old with screws.
7. Reconnect the wires on either terminal on the new switch.
8. Close/reattach the wiring access panel back onto the stove.
