

WHITFIELD CONTROL BOARD 16052112

INSTALL INSTRUCTIONS

HOW TO INSTALL:

1. Unplug the stove from the power source
2. Remove the fastening screws from the old control board.
3. Pull the control board out from the control board slot in the stove.
4. Disconnect the molex connectors from the back of the control board to remove the old control board.
5. Reconnect connectors to the new control board in the same locations as the old control board.
6. Push the new board into the control board slot in the stove and replace the fastening crews.
